

MAKE A REAL DIFFERENCE WITH A DONATION TO MELBA

Melba Support Services is a not-for-profit leader, supporting people with complex disabilities to live the life of their choosing. Everything we do at Melba is about individuals exercising **choice and control** over their daily life.

Having choices in life is something that many of us take for granted. From what we choose to eat for breakfast, to where and with whom we live, our choices define who we are and what we achieve. However, for some people who have a disability, those choices are limited – and **it's time to change that**.

Melba is pioneering a number of innovative projects that give people greater choice and control, and empower them to participate fully in community life.

Our 'Builders of Change' project will see the construction of 15 one and two-bedroom units in Lilydale. This project will deliver **affordable housing** in the local community, with the supports that people with disabilities need to be able to **live as independently as possible**.

Melba has also created several Social Enterprises that create opportunities for people with complex physical and intellectual disabilities to participate in a valued role. **Each role is created to match the individual interestes, needs and goals of the person**.

As a not-for-profit organisation, Melba relies heavily on donations so that we can continue to innovate, and challenge the status quo.

Your donations will help us to achieve all of this.

Thank you in advance.
