Making every adventure memorable

The world is a big, fabulous, fun place and we believe everyone should have the opportunity to explore it.

Our Leisure and Recreation Program provides tailored, fee-for-service options for you to take a break from the everyday with scalable levels of support. We specialise in small group (max 6 people) or individual trips to ensure you have the right support to get the most out of your experience. With that in mind, we offer the following support ratios (see table).

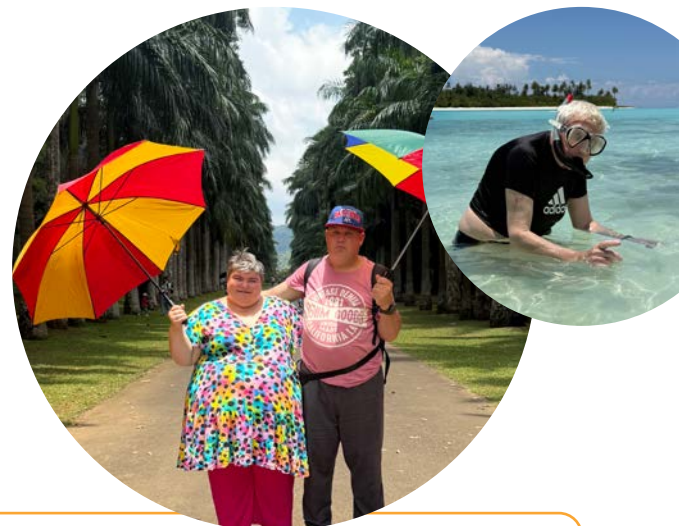

1:1 ratio	1:2 ratio	1:3 ratio	1:4 ratio*
You use a wheelchair and/or you receive one-to-one support with personal care, meals and when out in the community.	You prefer to be supported with personal care and meals. You use a mobility aid and enjoy a slower pace with close support.	You look after yourself most of the time, with a few hints and prompts. You like support with things like money and medication.	You're comfortable looking after yourself and being out in the community, you just need a bit of support with a few things.

*Where applicable.

Whether you're spending a day exploring your local community, travelling interstate or heading overseas, we make sure your journey is enjoyable, accessible and designed around what matters to you.

Each year, we have a range of planned activities and also offer customised options if you have something specific in mind.

With more than 20 years' experience in making meaningful and memorable moments happen, we know how to turn your travel dreams into experiences you'll always treasure.
